## Profile

---

A diligent and committed Computer Science student looking for a part time job in parallel with the final year of studies. While working towards a 1<sup>st</sup> class degree, I have shown I am able to balance the workload from university and a part-time job. I hope I can bring my time management abilities as well as others mentioned below to Ocado Technology. The knowledge gained from university and my free time interests such as building computers are only the beginning of what I could bring to the team.

## Education

---

|  |                             |                  |

## Work Experience

---

|   |                             |                                |
|---|-----------------------------|--------------------------------|
| <b>Ocado</b>  | <b>Delivery Team Member</b> | <b>November 2022 - Ongoing</b> |
| <ul style="list-style-type: none"><li>I receive a collection of customer orders in one go that all must be delivered on time. I assort the groceries into delivery bags, load them onto a bike and deliver them all under time pressure.</li><li>Improved punctuality as every delivery must be on time to maximise customer satisfaction.</li><li>Improved ability of working in uncertain situations, the exact location of every customer is often difficult to find and there are many other factors that make every delivery different.</li></ul>                  |                             |                                |
| <b>Splendid</b>   | <b>Waiter/Bar Tender</b>    | <b>March 2022 - Ongoing</b>    |
| <ul style="list-style-type: none"><li>Events get posted on the company website and employees select the shifts they would like to work on.</li><li>Gained industrial experience of working under pressure in a fast-paced environment. Some events require hundreds of guests to be served multiple courses before the event closing time.</li><li>Improved intuitiveness due to fast-paced nature. Decisions must be made quickly so everyone can work efficiently.</li><li>Gained interpersonal skills through working in teams and conversing with guests.</li></ul> |                             |                                |

## IT Skills & Projects

---

|                                       |  |
|---------------------------------------|--|
| <b>Programming Languages:</b>         | Java, Python, Haskell, C++                                   |
| <b>Databases and Web Development:</b> | HTML, PHP, CSS, JavaScript, MySQL                            |
| <b>Software Packages:</b>             | VS Code, Microsoft Office, IntelliJ IDEA, Visual Paradigm    |
| <b>Projects:</b>                      | Examples can be found in my <a href="#">online portfolio</a> |

## Additional Skills and Information

---

|                   |  |
|-------------------|--|
| <b>Languages:</b> | Lithuanian (fluent), English (fluent)  |
| <b>Hardware:</b>  | I enjoy building computers to my specification, this allows me to develop my knowledge of hardware.                        |
| <b>Sports:</b>    | My preferred sport is basketball. I follow the NBA and often play in the park with others.                                 |
| <b>Gaming:</b>    | Currently, I play Valorant and NBA 2K. I prefer to play team games as I find more enjoyment when playing alongside others. |
